# LIGHTING WITH **MULTILUMEN**

REVOLUTIONARY FLEXIBILITY

## BENEFITS

- ✓ Easy and fast power adjustment
- ✓ Space and cost savings in storage
- ✓ Reduced energy costs
- ✓ Extended lifetime
- ✓ High luminaire versatility
- ✓ Meets a wide range of end customer needs

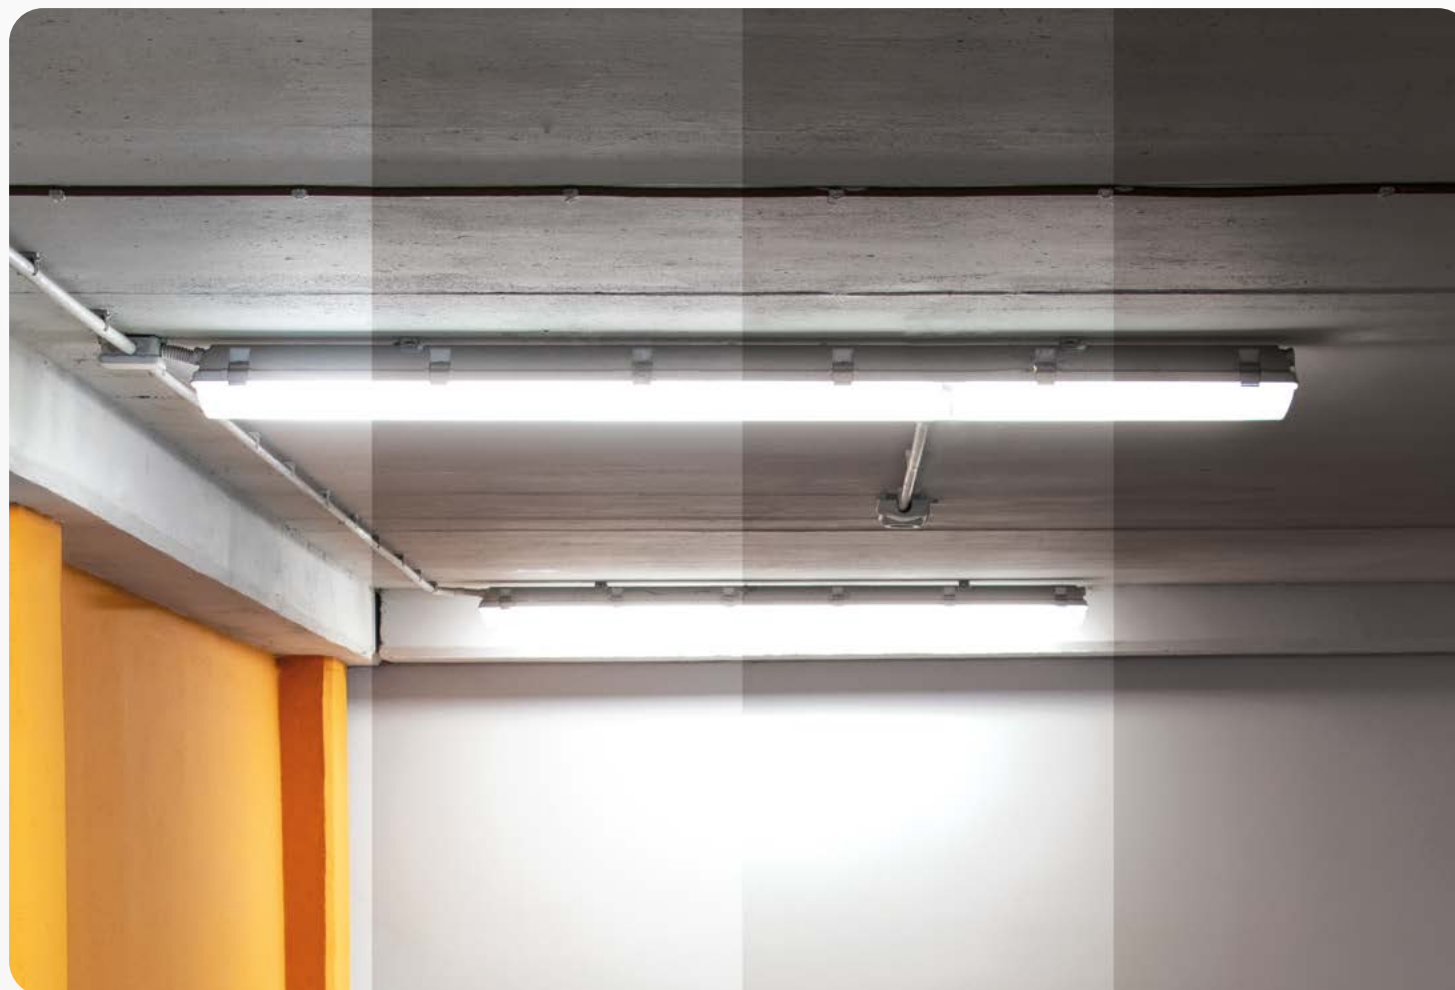

## HOW DOES MULTILUMEN WORK?

MultiLumen luminaires provide up to four luminous power options within a single unit, enabling customers to effortlessly adjust lighting intensity to their needs. This versatility ensures maximum flexibility, reduces wholesale inventory, and simplifies the selection process for optimal lighting. With a single product covering multiple requirements, MultiLumen luminaires offer a smart solution that adapts to market demands – bringing key benefits to wholesalers, building managers, installers, and end users alike.

## APPLICATION

- Industrial and storage buildings
- Farm buildings
- Parking lots, garages
- Transport terminals
- Public and commercial premises
- Healthcare and educational facilities
