TAURI

VERSATILE LIGHTING FOR MODERN INTERIORS

BENEFITS

- ✓ Greater performance in a single light
- ✓ Several colour spectra
- ✓ Extensive application possibilities
- ✓ Diverse range of functions

HOW DOES IT WORK?

TAURI is a modern, versatile interior light that offers several light outputs and colour spectra all in a single unit. This variability makes it a modern interior design element with adjustable light intensity, allowing you to create exactly the perfect atmosphere to suit your preferences. Its versatility makes it ideal for a wide range of environments.

TAURI is a light that livens up interiors while being easy to adjust and to adapt to specific conditions. Its broad compatibility with optional accessories enables the automation of the environment, saving energy.

APPLICATION

- Public and office buildings
- Schools and libraries
- Waiting rooms and passenger halls
- Shop window displays
- Changing rooms
- Cleaning rooms

OTHER ADVANTAGES OF TAURI LUMINAIRES

- Narrow, compact shape in two lengths
- Easily tiltable PC diffuser for simple installation, control and access
- The steel structure makes this a highly durable light
- An energy-efficient and durable alternative to track-mounted lighting fixtures with conventional fluorescent lamps
